

# Passage Program Placement Initiative: Candidates

## Supporting New Cybersecurity Talent

Supporting the development of new cybersecurity talent and improving the skills of existing professionals in the field is the mission of the Passage Program. The Placement Initiative provides individuals opportunities to start and advance their careers in cybersecurity.

### Candidates accepted into the Placement Initiative can expect:

- No out of pocket costs to enroll for qualified individuals
- Real-world assessments of cybersecurity skills and knowledge
- Hands-on experience to prepare for today's critical cybersecurity jobs
- Support with career development, resume building and interview readiness
- Identification of job competencies and areas of development
- Job placement support for program candidates with recruiters and hiring organizations

### Ready to advance your career?

If you are looking start or advance your career in cybersecurity, the Passage Program Placement Initiative can help.

**62%** Understaffed  
cybersecurity teams
